History & Vision

In 1971 GMSA missionaries Lyle and Nell Eggleston arrived to minister in Argentina. Over the next three decades seven local churches were established in Greater Buenos Aires, the second largest metropolitan area in South America after Sao Paulo, Brazil. Four churches are at different stages of being established by both missionaries and national pastors in the interior cities of Chivilcoy, Gualeguaychú, Villa Regina and Bariloche. Since the 1980's a Bible training center for equipping workers for the ministry has functioned in Greater Buenos Aires, and currently a twenty-five acre Bible camp is being developed near Chivilcoy, one hundred miles from Buenos Aires.

Our vision is to evangelize, disciple, and equip while establishing indigenous and reproducing local churches. We envision churches growing through evangelism, believers being disciplined, men and women being called, trained, and participating in full time ministry. We anticipate new missionaries and national workers planting churches in more than twenty targeted cities.

History & Vision

In 1923 Mr. William Strong sailed for Chile with his wife and two children, believing that God had called him to preach the Gospel to the Chilean military. The mission he founded was called "Soldiers and Gospel Mission of South America." By the 1930's career missionaries joined the Strongs and began establishing local churches from Caldera in the north to Coyhaique in the south. Nearly one hundred local churches and preaching points have been started since. Three Bible training centers equip national workers for the ministry and three Bible camps expand the ministry of local churches, especially in the area of evangelism.

Our desire is to continue establishing local churches in needy areas throughout central and northern Chile. To this end we will continue to use supportive ministries such as Bible training centers, Bible camps and Bible correspondence courses to assist existing local churches and works in progress.

History & Vision

In 1970 GMSA missionaries Eldon and Erma Durant launched a Gospel ministry in Uruguay. Local churches were started in Montevideo, Fray Bentos, Colonia, Salto and Paysandú and a preaching point was established in Orgoroso. A twenty-seven acre Bible camp facilitates these church planting ministries and a Bible training program is being developed to prepare workers for the ministry of the Gospel.

We have purposed to establish reproducing and indigenous local churches by evangelizing, discipling, and equipping Uruguayans. As God sends new missionaries and prepares national workers, we seek to bring the churches currently being established to maturity and forge forward to neighboring provinces. We desire to see a church planted in each of Uruguay's nineteen provinces.
